

Changing Matter (Paperback)

By Karen Larson

Teacher Created Materials, Inc, United States, 2015. Paperback. Condition: New. Language: English. Brand new Book. Matter is all around us! Everything we see is made up of matter - including the book you are holding and even our bodies. Explore the different states of matter, its properties, how it changes, and much more in this fact-filled book! Third-grade students will enjoy learning about solids, liquids, gases, and plasma as well as physical and chemical changes through this high-interest informational text filled with vibrant photographs. Aligned to the Next Generation Science Standards, a hands-on "Think Like a Scientist" lab activity is included at the end of the book, providing students with an opportunity to apply what they've learned in the text. Helpful diagrams and text features, such as a glossary and index, are also included to improve content-area literacy and support STEM education.

Reviews

It is one of the most popular publications. It really is written in easy words and not difficult to understand. You are going to like how the author writes this book.

-- Prof. Evans Balistreri DDS

Completely essential go-through book. This is for all who state there had not been a worthy of reading through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Lydia Legros
